BENE SOCIAL MEDIA GUIDELINES

- Let's explore Social Media together and learn from one another.
- For many people, Social Networks have become part of their everyday communications, much like telephoning, Lync and e-mail, expanding the range of networking possibilities.
- We support and promote the professional use of Social Media platforms for career-related purposes, though we do not require anyone to participate.
- Be authentic: write about topics that lie within your area of expertise.

BENE SOCIAL MEDIA GUIDELINES

- Use the same professional style for your statements that you use for your everyday work. You will be viewed as an expert online as well.
- Think first, then post prudent action and reaction in all situations applies here. If you are not sure about something, speak with a representative.
- Remember, never post any confidential information.
- Be aware that you are communicating with more than one person on the internet. Your postings are often accessible to a vast audience.
- Use the good manners that are established in your Social Network this makes activities in the community easier and more fun.
- Be part of the Bene Social Media network and send us any stuff you find in the web.
