COFFEE NOOXS

Zones for “collaboration and interaction” are ideal for informal meetings and productive exchanges.In particular, a well thought-out area for coffee breaks that is complemented with attractive and welcoming furnishings creates new opportunities to engage in conversation. creates new opportunities to engage in conversation. Coffee NOOXS promotes exactly this type of environment by offering an optimal way to integrate a coffee machine into the office setting. Complete with a power connector and water tank, Coffee NOOXS can be used as a free-standing element without requiring any construction to install it. This makes it easy to relocate it without much effort whenever needed. The attractive ‘single front’ design conceals a refrigerator and other support functions inside the body of the Coffee NOOXS. Cups and glasses find a stylish home in the open shelving, while any used tableware can be hidden away and stored in the matching mobile caddy. The integrated widescreen monitor can be used for important messages and news, or to communicate brand values.
