

DEXTER

Classic elegance for conferences, meetings, front office and management. The chair's shape excels with its casualness and is positioned in the minimalist Zeitgeist. The Dexter offers superior seating comfort.

With a design that is both classic and modern, the cantilever chair is a good choice for any representative communication area in the office.

Design: Christian Horner, Johannes Scherr, Kai Stania

bene

INSPIRING OFFICES. SINCE 1790.

PRODUCT DESCRIPTION

- ❶ **Seat + back:** Moulded shell made of beech plywood, upholstered with polyurethane cold foam and covered with fabric or leather.
- ❷ **Frame:** Cantilever chair in chrome or powder-coated in black or aluminium-coloured paint. Optionally available with plastic, carpet or felt glides.
- ❸ **Armrests:** The armrests feature a leather pad. If the chair is covered in fabric, the armrest can be chosen in leather from the price group L1. If the chair is chosen in L1 or L5 leather, the armrest can be configured in the same colour or in the black of the same price group.

OVERVIEW AND DIMENSIONS

OPTIONS AND ACCESSORIES

STACKABLE FRAME

Dexter is optionally available in a stackable version. This requires the frame to be in chrome.

- A maximum of 4 chairs can be stacked.

STACKING TROLLEY

The stacking trolley consists of steel tube and plate, in black and with castors (without brake).
DIMENSIONS: 677/677/238 mm.

METAL SURFACE GALVANISED

CR chrome

FABRIC AND LEATHER

Various fabric collections are available for the cover: Era, Urban Plus, Xtreme Plus, Step, Step Melange, Remix, Europost, Mainline Flax, Assam, Fox, Fiord, Steelcut, Stamskin Top, Hallingdal, Steelcut Trio, Divina Melange, Divina MD, Coda, Elle, Opera. Various leather collections: Ultra, Spectrum.

More information about the specific fabric and leather collections is available at www.bene.com.

SUSTAINABILITY

From the specifications stage through to series production, ecological requirements are always an important factor in the development process. This includes selecting environmentally compatible materials, such as CoC-certified timbers from sustainably managed forests, using recycled materials and increasing the use of renewable raw materials. In order to guarantee a high recyclability standard for our products, we avoid composites as much as possible and develop furniture that allows for disassembly.

Labelling of materials, their ability to be repaired, and a long service life for the components used, are other important requirements for product design. But the ability to disassemble and recycle the products at the end of their lives are also important criteria.

SUSTAINABLE RAW-MATERIALS

At Bene, the following materials are used as a matter of course:

- chipboards low in formaldehyde
- glues low in formaldehyde
- water-based varnish systems
- recyclable materials
- materials with a high recycling share
- PVC-free synthetics

Bene guarantees products free from:

- CMR substances
- halogenated solvents in synthetics
- chlorinated hydrocarbons
- heavy metal pigments
- materials with azo pigments
- Coatings with biocidal effects (such as wood preservatives, pesticides).

CONTRIBUTION TO BUILDING CERTIFICATIONS

In the context of ecological building certification, design systems such as furniture and dividing walls help to achieve a good result and a higher score.

Bene's products make a contribution towards the LEED, WELL Building Standard, DGNB, BREEAM, etc. certifications. Criteria include, for example, environmental product declarations, indoor air quality, acoustics and convertibility.

DEXTER

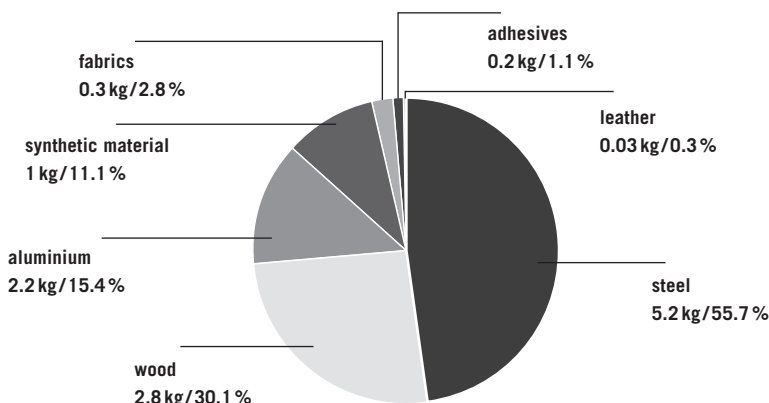

Example configuration

- cantilever chair
- synthetic fibre
- total weight 9.25 kg

Environmental key figures

- 100 % sortable by type
- 89.7 % recyclable
- 30.4 % of contents are renewable raw materials
- 25.1 % recycled production materials

Materials

On request, Environmental Product Declarations (EPD, LCA) – at Bene we call them Life Cycle Data Sheets – can be provided for all standard product configurations.

A list of product-specific certificates and design awards can be found on the Bene product website:
