LOCKER BAG

Modern offices are characterized by dynamism and mobility. Workstations are changed situationally and flexibly. The Locker Bag keeps all personal office essentials neatly organized, making them easy to transport throughout the office — from storage to workstation, from meeting to workshop, or for secure storage in a locker. The Locker Bag is made of durable material and equipped with practical compartments. It offers space for everything needed at the workplace: notebook, glasses, charging cable, headphones, and more. All personal work items are clearly arranged in one bag and always within easy reach. Designed for agile working concepts and offices that value organization.
