

MEZZO

This armchair is an all-around talent in all office spaces and places. The lively seat shell and dynamically shaped armrests are formally significant. The

Mezzo office armchair has a spirited character. Formal lightness and a variety of colour OPTIONS also ensure a pleasing appearance.

Design: Johannes Scherr, Kai Stania, Christian Horner

bene

INSPIRING OFFICES. SINCE 1790.

PRODUCT DESCRIPTION

- 1 Seat + back:** Ergonomically shaped seat shell made of plywood, non-upholstered in veneered beech, natural maple or varnished beech. The chair is optionally available with full upholstery or partial upholstery, with a fabric cover. The varnished version can be ordered with a visible wood core.
- 2 Frame:** 4-leg, round steel tube, in chrome or powder-coated in black or aluminium-coloured paint. Comes standard with acoustic glides, optionally with felt glides.
- 3 Armrests:** Optional. Made of polyurethane with steel core, in black.

If Mezzo is chosen with upholstery, a plastic stacking tray is installed under the seat. This protects the fabric during stacking.

OVERVIEW AND DIMENSIONS

OPTIONS AND ACCESSORIES

STACKABLE FRAME

Mezzo is optionally available in a stackable version.

- without stacking trolley: A maximum of 7 chairs can be stacked.
- with stacking trolley: a maximum of 12 chairs with armrests or 9 chairs without armrests can be stacked.

STACKING TROLLEY

The stacking trolley consists of steel tube and plate, in black and with castors (without brake).
DIMENSIONS: 677/677/238 mm.

ROW CONNECTION

Symbolic image

Mezzo chairs can be connected to each other. When chairs with armrests are used, every second chair must be one without armrests.

WRITING TABLET

Only possible for chairs with armrests; one armrest will be replaced. When a writing tablet is attached, the chair can no longer be stacked. The tablet is available in stained beech plywood, natural maple or varnished wood. If the chair is fully upholstered, the design can be freely chosen; in case of partial upholstery, it corresponds to the seat shell.

FABRIC

Various fabric collections are available for the cover: Era, Urban Plus, Xtreme Plus, Rondo, Step, Step Melange, Remix, Europost, Mainline Flax, Fox, Fiord, Steelcut, Stamskin Top, Hallingdal, Steelcut Trio, Divina Melange, Divina MD. More information about the specific fabric and leather collections is available at www.bene.com.

SUSTAINABILITY

From the specifications stage through to series production, ecological requirements are always an important factor in the development process. This includes selecting environmentally compatible materials, such as CoC-certified timbers from sustainably managed forests, using recycled materials and increasing the use of renewable raw materials. In order to guarantee a high recyclability standard for our products, we avoid composites as much as possible and develop furniture that allows for disassembly.

Labelling of materials, their ability to be repaired, and a long service life for the components used, are other important requirements for product design. But the ability to disassemble and recycle the products at the end of their lives are also important criteria.

SUSTAINABLE RAW-MATERIALS

At Bene, the following materials are used as a matter of course:

- chipboards low in formaldehyde
- glues low in formaldehyde
- water-based varnish systems
- recyclable materials
- materials with a high recycling share
- PVC-free synthetics

Bene guarantees products free from:

- CMR substances
- halogenated solvents in synthetics
- chlorinated hydrocarbons
- heavy metal pigments
- materials with azo pigments
- Coatings with biocidal effects (such as wood preservatives, pesticides).

CONTRIBUTION TO BUILDING CERTIFICATIONS

In the context of ecological building certification, design systems such as furniture and dividing walls help to achieve a good result and a higher score.

Bene's products make a contribution towards the LEED, WELL Building Standard, DGNB, BREEAM, etc. certifications. Criteria include, for example, environmental product declarations, indoor air quality, acoustics and convertibility.

MEZZO

Example configuration

- 4-leg, without armrests
- seat shell, non-upholstered
- total weight 5.02 kg

Environmental key figures

- 100% sortable by type
- 99.6% recyclable
- 52.8% of contents are renewable raw materials
- 20.8% recycled production materials

Materials

On request, Environmental Product Declarations (EPD, LCA) – at Bene we call them Life Cycle Data Sheets – can be provided for all standard product configurations.

A list of product-specific certificates and design awards can be found on the Bene product website:
