

PARCS MEDIA BOARD

OXYGEN FOR THE OFFICE

Elegant and slim media furniture for digital collaboration in a team. Versatile and easy to use, the Media Boards can be integrated into the Toguna Circle and the Toguna Square – or be mounted directly on to a wall. All without using up too much space. The body is made of metal, white powder-coated with an attachment to hold the monitor. It offers storage

space for utensils, a Micro PC and a connection plug board for the monitor port. To make it more convenient to operate from the outside, you can also order optional cable management on the side consisting of a freely accessible connection plug board, a removable cable winder for extra long cables, and a place to store the remote control for the monitor.

Design: Pearson Lloyd

*Model in custom height with video conferencing equipment available upon request.

BENE WORKS SUSTAINABLY

Bene plays a leading role in responsible environmental management. This policy is practised throughout all company divisions – from product development, procurement, production and logistics to product recycling. Bene considers ecology to be a central element of its responsible and sustainable corporate strategy. Bene sees the legal regulations as minimum requirements and strives for better and more sustainable environmental protection throughout the group. Bene's environmental policy principle is: **Avoidance – Minimisation – Recycling – Disposal.**

PARCS MEDIA BOARD - ECOLOGICAL STANDARDS

- 99.5% recyclable
- 46.2% renewable raw materials
- 59.46% use of recycled product materials (37.55% post-consumer, 21.90% pre-consumer)
- 46.07% use of recycled product materials that comply with LEED (37.55% post-consumer, 21.90% pre-consumer)
- Resource-conserving product design
- Use of materials tested for presence of hazardous substances
- No PVCs, chromium, lead or mercury
- Individual parts can be sorted according to homogeneous categories
- Recyclable, with a positive contribution to the carbon footprint(average 61 kg CO₂)

PARCS MEDIA BOARD LEED POINTS

Leadership in Energy and Environmental Design (LEED) is a system developed by the U.S. Green Building Council to classify ecological construction. As an internationally recognised standard, LEED sets out numerous guidelines for environmentally friendly, resource-efficient, and sustainable construction. The use of PARCS Media Board is an important contribution to LEED certification. The following criteria for this are from »LEED 2009 for Commercial Interiors«:

MR Credit 4	Recycled content	up to 2 points
MR Credit 5	Regional materials	up to 2 points
IEQ Credit 4.5	Material with low hazardous substance content	up to 1 point
