

NOOXs.

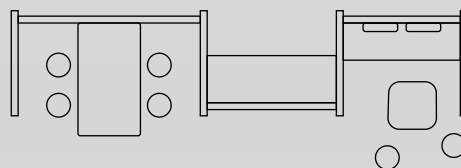

FLEXIBLE AND MODULAR, NOOXs STRUCTURES SPACE.

This flexible modular space system by Bene creates semi-secluded niches or enclosed meetings areas in open plan offices, adaptable to your needs. For meetings and brief

discussions, as a business box, phone booth or media hub, NOOXs is a smart way to distinctly define different work spaces.

DESIGN: PearsonLloyd

Smart niches in an open space.

EASY ACTING.

NOOXs is a construction set comprising of wall, ceiling and door elements – easy to plan and quick to assemble and dismantle. Thanks to its smart and flexible design, NOOXs will accompany your office throughout the years, adapting to its changing needs.

INFRASTRUCTURE FOR TEAMWORK.

You can achieve more in a team than on your own.

NOOXs delivers a whole range of spaces for teams and their different needs, thus preparing the ground upon which ideas will best flourish.

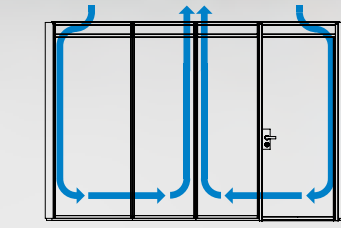

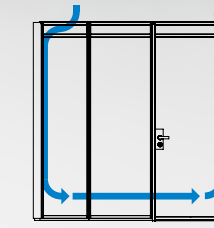

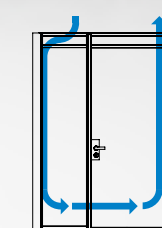

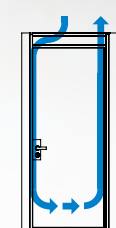

Office stands for a way of life. And a good life leads to successful work.

Standardised culture is the last thing we need; diversity is the key to success. To keep their balance, people require calm and concentration between talks and meetings.

NOOXs THINK TANK.

The freestanding room-in-room system with integrated ventilation and lighting creates temporary private zones in open spaces. While glazed elements convey an atmosphere of lightness, curtains and blinds offer optional privacy if desired. Uniquely designed and available in four sizes, THINK TANK offers high quality comfort, a complete technical infrastructure and excellent noise protection in an extremely short assembly time. An environment that will stimulate your imagination in next to no time.
