

# RONDO

A chair with a strong identity. Two organically formed and smartly jointed laminated wood shells create sculptural quality. Soft, flowing lines set a counterpoint to today's rational world. Can be used in a

variety of spaces and places: conferences, meetings, waiting areas, cafeterias, restaurants and break-out areas. Or at home.

**Design: Johannes Scherr, Kai Stania, Christian Horner**

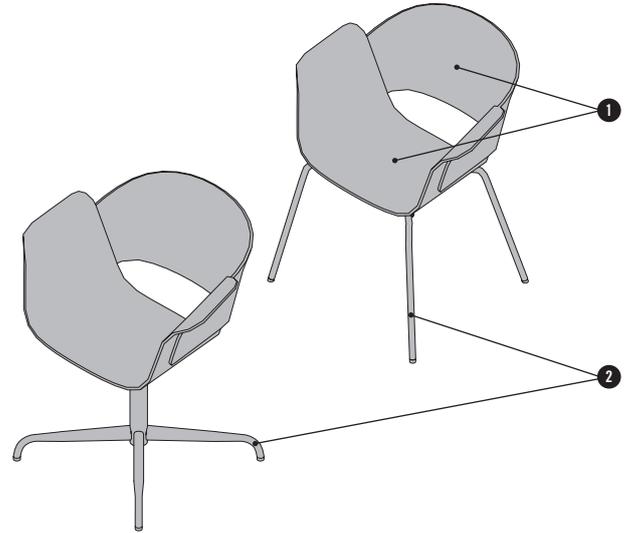

**bene**

**INSPIRING OFFICES. SINCE 1790.**

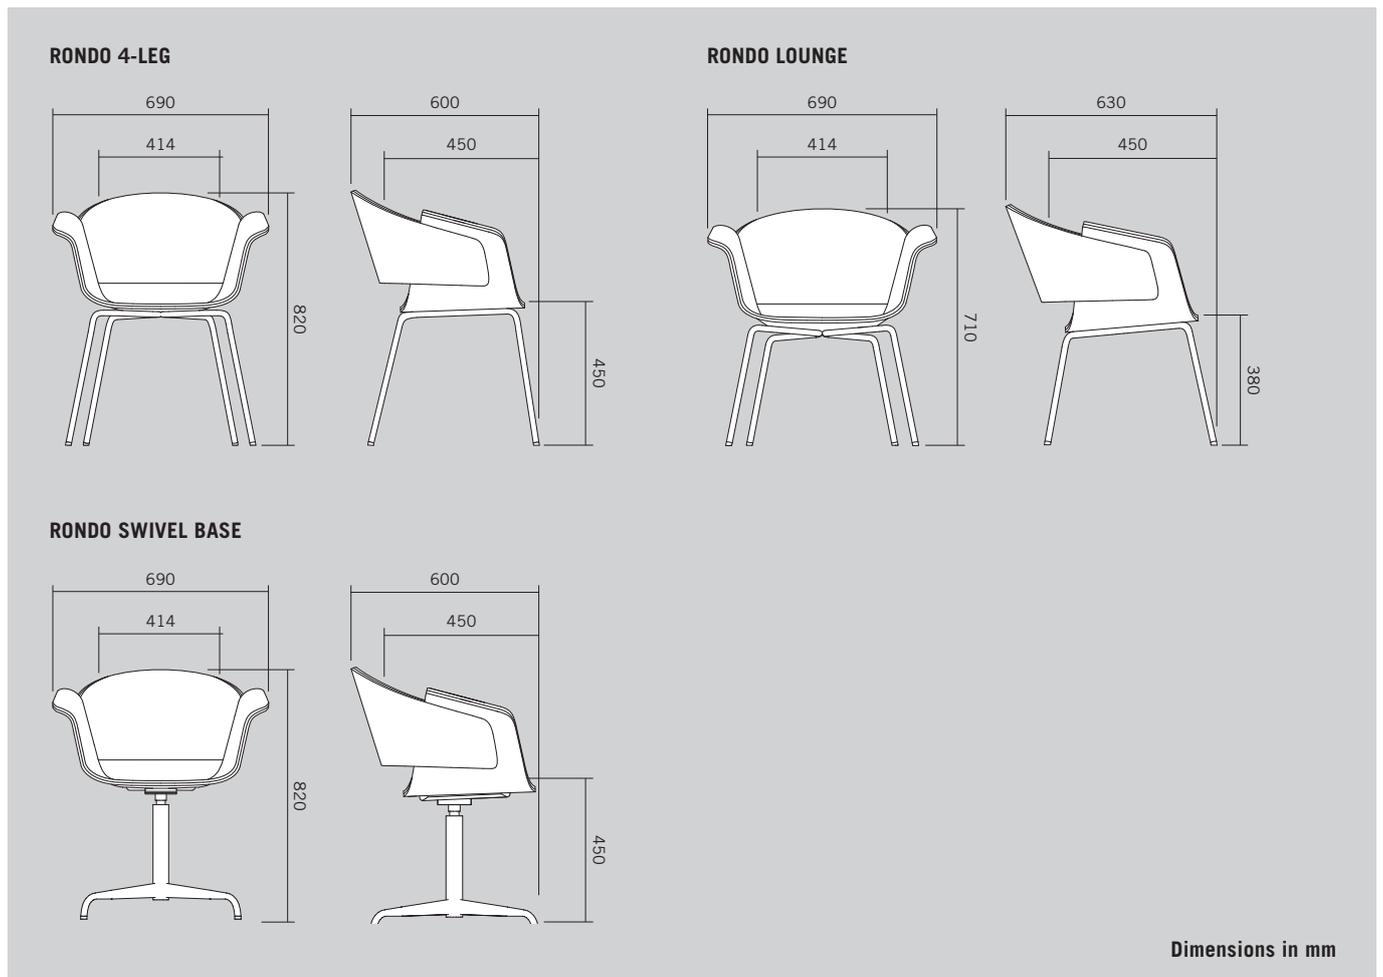

## PRODUCT DESCRIPTION

Rondo is available as a 4-leg or 4-leg lounge version or swivel chair.

- 1 **Seat + back:** Shell formed of 8 mm plywood, in veneered beech, natural maple or varnished beech. The chair is optionally available with partial upholstery (polyurethane foam), with a fabric or leather cover. The armrest is integrated into the shell.
- 2 **Frame:** 4-leg or 4-star swivel base, in chrome or powder-coated in black or aluminium-coloured paint. Comes standard with acoustic glides, optionally with felt glides.  
 4-leg: made of steel tube with a diameter of 18 mm.  
 Swivel base: The column is a steel profile pipe with a diameter of 50mm, cantilever legs made of moulded steel tube. A return mechanism is included.

## OVERVIEW AND DIMENSIONS

## COLOURS & MATERIALS

### METAL SURFACE POWDER-COATED

AL aluminium

SZ black

### METAL SURFACE GALVANISED

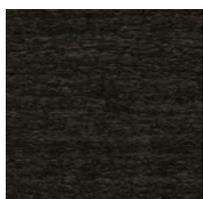

CR chrome

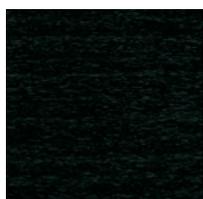

### PLYWOOD: BEECH

BU beech natural

BG beech grey

BO beech vulcano

### MAPLE

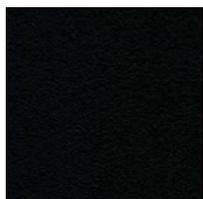

AR maple natural

### LACQUERED WOOD

OA white

BS basalt

### FABRIC AND LEATHER

Various fabric collections are available for the cover: Era, Urban Plus, Xtreme Plus, Rondo, Step, Step Melange, Patina, Remix, Europost, Clara, Mainline Flax, Fox, Fiord, Divina, Steelcut, Stamskin Top, Hallingdal, Steelcut Trio, Divina Melange, Divina MD, Greenwich, Greenwich Uni. Various leather collections: Entrée, Entrée Color, Superior. More information about the specific fabric and leather collections is available at [www.bene.com](http://www.bene.com).

## SUSTAINABILITY

From the specifications stage through to series production, ecological requirements are always an important factor in the development process. This includes selecting environmentally compatible materials, such as CoC-certified timbers from sustainably managed forests, using recycled materials and increasing the use of renewable raw materials. In order to guarantee a high recyclability standard for our products, we avoid composites as much as possible and develop furniture that allows for disassembly.

Labelling of materials, their ability to be repaired, and a long service life for the components used, are other important requirements for product design. But the ability to disassemble and recycle the products at the end of their lives are also important criteria.

### SUSTAINABLE RAW-MATERIALS

At Bene, the following materials are used as a matter of course:

- chipboards low in formaldehyde
- glues low in formaldehyde
- water-based varnish systems
- recyclable materials
- materials with a high recycling share
- PVC-free synthetics

Bene guarantees products free from:

- CMR substances
- halogenated solvents in synthetics
- chlorinated hydrocarbons
- heavy metal pigments
- materials with azo pigments
- Coatings with biocidal effects (such as wood preservatives, pesticides).

### CONTRIBUTION TO BUILDING CERTIFICATIONS

In the context of ecological building certification, design systems such as furniture and dividing walls help to achieve a good result and a higher score.

Bene's products make a contribution towards the LEED, WELL Building Standard, DGNB, BREEAM, etc. certifications. Criteria include, for example, environmental product declarations, indoor air quality, acoustics and convertibility.

## RONDO

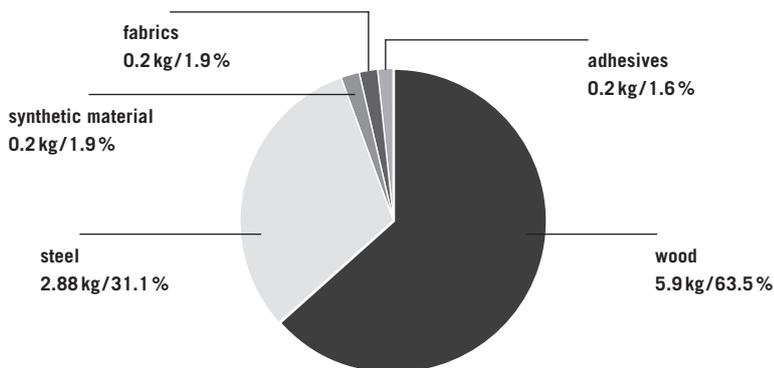

### Example configuration

- 4-leg
- partial upholstery, with synthetic fibres
- total weight 9.25 kg

### Environmental key figures

- 98.4 % sortable by type
- 96.8 % recyclable
- 63.5 % of contents are renewable raw materials
- 14.0 % recycled production materials

### Materials

On request, Environmental Product Declarations (EPD, LCA) – at Bene we call them Life Cycle Data Sheets – can be provided for all standard product configurations.

A list of product-specific certificates and design awards can be found on the Bene product website:
